

Permeable Patios or Driveways

PERMEABLE ASPHALT TOP COURSE

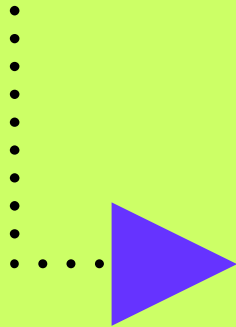

Thickness depends on load requirements.

CHOKER COURSE

BASE or RESERVOIR COURSE

Depth depends on design storm and detention and structural requirements.

SUBGRADE (Existing soil)

Design Basics

Permeable driveways constructed out of asphalt, concrete or pavers should be designed by a licensed civil engineer

Paver patios or flagstone patios with gaps of gravel or granular soil between the stones can be designed and built by the homeowner.
