

PROJECT GOALS

MOBILITY

- Improve multimodal access for people of all ages and abilities to the Olympic National Park from Front St
- Improve multimodal safety along Race Street for local trips by residents
- Promote physical activity along the corridor

OPERATIONAL/MAINTENANCE

- Develop a design that considers maintenance along the corridor

ECONOMIC

- Strengthen the visual appearance along the corridor to grow and support tourism in Port Angeles
- Use Race Street to promote local activities and events in Port Angeles

PROJECT GOALS

STORMWATER

- Develop a street corridor design that minimizes the impact on the water quality of Peabody Creek and recognizes potential corridor development

EXPERIENTIAL

- Design a cohesive entry experience that connects US 101 to Olympic National Park and references the changing character of the local landscape

LAND USE

- Develop context sensitive solution that respond to various land uses along the corridor
- Develop an adaptable design that can respond to changing land uses over time
